AT THE NATIONAL CAPITOL.

Answer Of Spain Being Received
By Cable.

IT IS CAREFULLY KEPT SECRET.

Big Conclave of Scottish Rite Masons
Being Held--Nansen the Arctic Ex-
plorer Calls on The President.

By Wire to THE TELEGRAM.

Washington, Oct. 26.—Spain's reply to the note of this country regarding the Cuban question is being received by the State Department today by cable from Minister Woodford. The reply is evidently a very voluminous one. The greatest secrecy is being observed with reference to it. The reply will be laid before the President and Cabinet as soon as possible.

The Great Arctic Explorer.

Dr. Frithjof Nansen, the Arctic Explorer, arrived this morning and went immediately to the legation of Sweden and Norway. President McKinley received him at the Whitehouse. Tonight he will be tendered a reception by the National Geographical Society and the Washington Scientists when he will make a few remarks.

Thirty-Third Degree Masons.

The Supreme Council of the Sovereign Grand Inspectors General of the thirty-third and last degree of the Ancient and Accepted Scottish Rite Masons convened today in its thirty-third annual session.

The meeting is of great importance. Many interesting questions will come before the council for final disposition. The session will continue until Friday.

Broke Up the Cart.

A young horse which was being broken to harness got away from his driver, on Davie street, about five o'clock yesterday afternoon, and set a hot pace up that street toward the railroad crossing. Some colored men who were standing at the freight depot, with that remarkable judgment usually displayed under such circumstances, began to throw up their hands and yell like untamed Comanches thereby turning the runaway through the cross street into the busy part of South Elm instead of allowing him to continue the race on the unused street. As the horse swerved into the cross street he fell so violently as to break entirely loose from the cart. He lay stunned for a moment, quite long enough to have been caught, but was allowed to get up and resume his race up South Elm where he was fortunately caught before he could do any further damage. The cart was considerably demolished.

The glorious cathedral of St. Peter at Rome, the largest, most famous, most beautiful edifice ever reared to the worship of God, described Friday night by an eye witness. At eight o'clock.

Two Weeks Italy.

A rare treat is in store for our people. Dr. C. Alphonso Smith has consented to deliver his lecture, "Two Weeks in Italy," on next Friday night at the Academy of Music, under the auspices of the Emma Gray Missionary Society.

The lecturer will give his impressions of Italian life and scenery as witnessed in Milton, Venice, Florence, Rome and Pompeii. There will be descriptions of a gondola ride, St. Peter's Cathedral, the Catacombs of Rome, the curiosities of Pompeii, the Vesuvius, etc. Admission twenty-five cents. No reserved seats.

Auction! Auction!!

March on to victory in health seeking by buying a "Victory" Bicycle at the auction sale Wednesday, at 3 and 8 p. m., next door to Holton's, McAdoo House building.

Car Load of Stoves By Express.

The Shuford Hardware Company, of Hickory, manufacturers of the "King Heaters," filled an order last Friday for a full car load of these stoves for the Julius Lewis Hardware company, of Raleigh.

The shipment was made by the Southern Express Company on trains No. 8 and 36. This speaks well for a North Carolina industry and for the facilities for handling business.

Auction!

These people selling bicycles at auction are the only concerns in the south selling high grade wheels this way for the manufacturers. Auctioneers place tomorrow at 3 and 8 p. m., at McAdoo House building.

The ascent of the volcano Vesuvius tonight at the Academy of Music is alone worth the admission fee. At 8 o'clock.

Norris Bros Dog and Pony Show.

Norris Brothers, the noted animal trainers, will exhibit their company of one hundred educated Shetland ponies and dogs under a large water proof tent on the vacant lot on South Elm street, Thursday Oct. 28. Performances will be given at 3 and 8 p. m.

This class of show is becoming very popular throughout the country. It is refined and of high moral standard and seems to appeal to no particular class or creed but is equally enjoyable to all. The animals are handled very carefully and treated with the greatest possible kindness, and have trained to imitate their human superiors in a great variety of ways. There are animal actors, mimics, acrobats and clowns. In addition to the handsome little ponies and dogs a number of comical monkeys and goats are introduced. The entire company will be seen on street parade at noon. Prices of admission, adults 20c, children 10c.

The Other Side.

There has been a great deal said and written about alleged overcharges and other violations of contract of M. I. & J. C. Stewart, public printers. It now begins to look like there will be two sides to the business.

The Raleigh correspondent of the Wilmington Messenger says:

"It is reported that Stewart Bros. will bring suit against Auditor Ayer, Secretary of State Thompson and possibly Treasurer Worth for alleged malfeasance in office. They contend that these officers have given the State printers unnecessary trouble and refused to pay them some of the money belonging to them."

Parents, do not fail to bring your children to the Academy Friday night. It will be a liberal education to them. At 8 o'clock.

Presidential Appointments.

The Presidential appointments today are: B. Sarsby, of Mississippi; consul at San Juan del Norte; William K. Van Reypen, a surgeon-general chief of the Bureau of Medicine and Surgery of the United States navy; Wilson R. Gay, United States attorney for the district of Washington.

A gondola ride tonight in Venice, where the houses are of marble and the streets paved with water. At the Academy Friday night.

A charming trip through classic and storied Italy Friday night, at 8 o'clock, under the skillful conduct of Dr. C. Alphonso Smith, of the University of Louisiana.

THE ACT OF A MANIAC

Crazed With Drink, he Used a
Revolver With Deadly Effect

THREE MEN KILLED INSTANTLY

The Killing Entirely Unprovoked—Ran
Amuck but Was Finally Arrested
and Jailed by a Sheriff.

By Wire to THE TELEGRAM.

Gorham, N. H., Oct. 26.—Thomas Monahan, a white man who was crazed with drink, shot and instantly killed Joseph Ganthier, an employee of the Grand Trunk line here today.

There had been no previous quarrel between the men. He also shot Selectman Gates, who died shortly afterward.

Gates was trying to arrest the maniac when shot. Later another body was found and it is believed to be his third victim.

It is supposed that he tried to intercept Monahan after the Gates shooting and was killed in turn.

Sheriff Hamlin arrested the murderer, who also had a big knife.

CLEARING AWAY THE DEBRIS.

All the Sleepers Fished Out of the
Hudson.

By Wire to THE TELEGRAM.

Garrison, Oct. 26.—The work of clearing up the wreck continues today. All the sleepers have been taken out and are being taken to the repair shops. The combination car in which eight Chinamen were drowned was saturated with kerosene today and set on fire. The wreckers expect to raise the locomotive before evening.

The Injured Are Improving.

All of the injured passengers who were taken to the Peekskill hospital are doing very well this morning and are considered on the road to rapid recovery.

President of Reichsrath Resigns.

By Cable to THE TELEGRAM.

Vienna, Oct. 26.—Herr Thomas Kathrein, President of the lower house of the Austrian Reichsrath, resigned today in consequence of the persistent obstructive tactics of the German deputies in that chamber.

Knitting Mills Burned.

By Wire to THE TELEGRAM.

Hudson, N. Y. Oct. 26.—Nearly the entire plant of the Union Knitting Mills was burned today.

Mixed Up Runaway.

About the worst mixed up runaway we have seen lately happened today about noon. Two horses were standing hitched to a wagon in the vacant lot opposite THE TELEGRAM office on East Sycamore street.

Both horses and wagon had seen better days. By some means the breast tree was broken and the tongue forced partly under the wagon with the horses still hitched to the double-tree. In this condition the horses decided they would have a little tea party of their own and ran out on East Sycamore and started with the wagon "catty-cornered"—note the spelling, please—for the market, where they were stopped with no other damage than a broken wagon tongue.

If some people we know would run away and break their tongues it would help matters a little, but that doesn't affect this runaway.

The team, we are told, belongs to a man who has been married five times and contemplates a sixth venture. It seems to us that a man who has lived through the five experiences mentioned above and has nerve enough left for another trial, ought to be able to control a whole herd of Texas ponies, to say nothing of a pair of plain old every day horses.

Coming Back to Greensboro.

Col. A. H. Leftwich, an old resident of this city who removed to Spartanburg a few years ago writes a friend that he is coming back to live, and will be here soon. His goods are being packed and will be shipped at once.

Colonel Leftwich has many friends here and all will extend to him a cordial welcome.

Aged Colored Woman Dead.

Sacramento, Cal., Oct. 25.—Aunt Nancy Daniels, a colored woman is dead here, at the age of 119 years. She was a native of Virginia.

The worlds greatest galleries of painting and sculpture visited tonight at the Academy of Music Friday night.

SOLDIERS AT ST. MICHAEL.

Col. Randall Reports the Arrival of
the Detachment.

Washington, Oct. 26.—Adjutant General Beck received a telegram this morning from Colonel Randall of the 9th Infantry, commanding the military forces in Alaska dated St. Michael, October 9th, saying that the military detachment arrived there the day before and that the supplies were landed in good condition. He says that there are about 180 persons on the island and that good order prevails.

News of the Old North State.

The railroad commission case is being heard before Judge O'Brien Robinson in Raleigh. The case will probably consume several days yet.

A big storm is reported to be raging on the Atlantic coast. It is quite heavy off Cape Hatteras.

The rice crop is about all harvested and the thrashing of the grain is now occupying the attention of planters. The crop this year is fully as large as it was last; probably will be larger. The equinoctial storms didn't damage the crop at all, in fact the Wilmington crop almost always escapes damage from this source.—Wilmington Star.

Gen. Nelson A. Miles, major general commanding the United States army, recommends an appropriation by congress of \$397,000 for the coming fiscal year for modern fortifications and high power guns for the defence of Wilmington.

Heavy Loss in a Warehouse.

By Cable to THE TELEGRAM.

Glasgow, Scot. Oct. 26.—The large bonded warehouse situated on York street in this city burned today. The damage amounts to fifty thousand pounds.

Postponed.

The lecture of Dr. Alphonso C. Smith, advertised for the Academy of Music tonight, has been postponed until Friday night on account of the weather.

POUND FOOLISH.

AMERICANS are saved by situation from the necessity of maintaining a large standing army and bearing the burden of taxation incident to its support. There is a growing opinion, however, that it is unsafe to trust to good fortune and so weak a navy as we have at the present time.

The talk of war with Spain and the resultant comparisons of the naval strength of that country and this has shown that on the sea we are Spain's inferior. The new interpretation of the Monroe doctrine and the possible entanglements that may result from it make a respectable navy an indispensable necessity.

There are signs in abundance that the United States is regarded with malignity by every first rate power of Europe; surely it is unsafe under such conditions to remain inferior in naval strength to a fourth rate power.

Any one who has taken the pains to note the tone of European criticism in the Venezuelan boundary dispute, in the Cuban matter and sealing question could not fail to be struck with its uniform hostility. In none of these cases has a word of approval of the course pursued by this country been uttered, save by one newspaper, the Independence Belge.

There is something ominous in this attitude of the old world that cannot be safely or wisely ignored. The respect shown the United States is because of her commercial much more than her military power. There may come a time when our pork and corn, our wheat and debts may be an inadequate protection.

It is difficult to see why Spain should have suffered such a material accretion of liberality toward Cuba if, as she claims, the insurrection is practically under control. If she would not grant autonomy when autonomy would have satisfied Cuba, when the insurrection was still new, she would certainly not make the offer now that she has expended so much blood and treasure in attempting its suppression and when continued losses have enraged and embittered her if she could avoid it. Her attitude and declarations are altogether contradictory and her attitude is much the surer indication of the true status of affairs. "Cuba libre" will yet be a reality with nobody to thank for it but her own good right arm.

It is an easy way out of the matter for the General manager of the New York Central to say that the appalling accident at Garrison was "due to providence." Providence is not liable to damage suits and other unpleasant things incident to railroad wrecks. So far as the facts can be ascertained they show that the road bed slipped into the river carrying the train of cars with it. If such be the case it would seem that contributory negligence as well as providence may have been partially responsible for the wreck. The road management may be quite blameless of course; they may be wholly responsible. Providence, like liberty, is used as a scapegoat for the faults of a great number of people.

Two Indians rode into Topeka and made a lot of women folks dance in the town square. This is directly attributable to the absence of Mary Ellen. If she had been at home the other party would have done the hopping.

ACCIDENTS continue to befall the United States battle ships with the old regularity, the latest victim being the Iowa. The Secretary of the navy will soon have to pack the whole lot off to the Marine Hospital.

THE New York Sun is much concerned about the "men who do not vote" but it will be the men who do vote that will do a plenty to the Sun's mayoralty candidate.

MR. ALFRED AUSTIN, the present lamented Poet Laureate, is receiving world wide congratulations on his successful attempt to write a piece of intelligible prose.

EVIDENTLY the Union Pacific railroad does not mean to let up until it gets in a solar plexus blow on the emaciated residue of national morality.

AS yet the assaults of the Baltimore Sun on Mr. Gorman have not brought about another interview between him and its advertising solicitor.

GEORGE VANDERBILT may not be rashly brave but the fair manifestly thought him very deserving.

CAPE MAY UNDER WATER.

Suffering from the Worst Storm in Many Years.

Cape May, N. J., Oct. 25.—The worst storm for nineteen years is prevailing here. The tide covers more than a third of the city and the wind reached a velocity of 45 miles an hour and is still blowing a gale. The trolley cars have been stopped.

An unknown two-masted schooner, with sails gone, is at the mercy of the storm, two miles off the coast.

South Cape May is also flooded and cottage porches and fences have been washed away.

Train service to all the beach resorts has been suspended.

In Delaware.

Delaware Breakwater, Oct. 25.—A northeast gale is raging here. The schooner Anna L. Ponder, loaded with wood, from Richmond for New York, is ashore three miles north of Mull's pier. The life saving service wires are down and no word has been received from down the coast.

YEAR'S WHALE CATCH.

Bark Lydia Leads Fleet in With Light Cargo.

San Francisco, Oct. 25.—The bark Lydia, the first of the whaling fleet to arrive, reached here yesterday. Only three whales, yielding 45,000 pounds of bone and 300 barrels of oil, were reported as the season's catch. The bark was out eight months and two days.

About the time the bark started home many whales were sighted going into the Northeast gulf, but, fearing shipwreck, Capt. Jenks decided to return to this port.

The Coliseum at the Academy tonight.

A Success.

The story is revived by the Chicago Times-Herald, which is on good terms with the White House, that Secretary Sherman is embarrassing the administration. Nothing strange in that. As an embarrassed Sherman is a success. He did more to embarrass this country than any other living man.—Wilmington Star.

Big Auction.

Take a spin on foot to the auction sale Wednesday and buy a wheel and quit walking. McAdoo House building, at 3 and 8 p. m.

A special to the News and Observer of this morning says: A daughter of Rev. Mr. Edwards, of Connelly Springs, committed suicide yesterday by drowning in the Daniel Johnson mill-pond, several miles from her home. She was discovered when sinking the last time, but the efforts to rescue her were in vain, the body being recovered too late for resuscitation.

Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for consumption, coughs and colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at C. E. Holton's drug store.

It's Too Provoking.

"There you go again, tracking up my clean floor and fresh carpets with your muddy feet! Haven't I told you to wipe them before you come into the house?" "Don't scold so, mother. I do try to get them clean, but I just can't do it with nothing but an old piece of carpet for a foot mat. If you'd just send down to Odell's and get one of their Cocoa mats, I'd promise you to give you no more trouble. I was down there yesterday, and they had just opened up the greatest lot of them—beauties. And the clerk said they are cheaper than ever."

Auction of Wheels.
If you do not live in Greensboro it will pay you well to take a spin on the train to attend the auction sale of high grade bicycles Wednesday, Oct. 27th, then spin home on a wheel. This is the first and only chance you will have to get a high grade wheel where you make the price.
To Our City Subscribers.
If you have subscribed for THE TELEGRAM and don't get it, or receive it irregular, please let us know. Send us word, drop us a postal, phone or call at the office and inform us of the fact. We will be sorry for the mistake having occurred and will try to remedy it.

Auction-Wheels Galore.
You want a wheel you can ride, not wheels in your head. Here is a chance to get one at your own price. There will be a public auction of 1897 and 1898 models, high grade wheels, fully guaranteed by the manufacturers, manufactured by the John P. Lovell Arms Co., known as the "Lovell Diamond" and "Lovell Excel" and unless purchased at this sale will cost you \$75 and \$100. McAdoo House building, next door to Holton's drug store. Ladies especially invited to attend this sale—at 3 and 8 p. m.
Electric Bitters.
Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, constipation, dizziness yield to Electric Bitters. 50c. and \$1.00 per bottle at C. E. Holton's drug store.

Master Tom Beall,
who is the subject of this sketch, is the 13-year-old son of Dr. and Mrs. W. P. Beall, and the hero of THE TELEGRAM contest for the Golf Combination Suit given by us to the boy under 16 years of age, who would procure the greatest number of our ads from this paper in six consecutive days.
With fifty or more boys in the race it was no easy matter to be the successful one, but Tom went in to win, and win he did, being able at the end of the contest to present us with 1,279 clippings.
Tom is a bright young lad, and if the business sagacity, energy and pluck displayed in this contest continue with him through life, we predict for him a bright future.
The parents of such a boy as Tom must feel justly proud.
We ran short of large sizes in the Combination Suits last week, but have just received a new supply, ages all the way from 6 to 16.
REMEMBER—These suits have an extra pair of pants, extra buttons and an extra piece of the goods to go along for patches. Price, \$5.00.

TO STOP A TRAIN.
Report of a Recent French Invention.
Consul Morris, at Ghent, Belgium, reports to the state department a new invention recently tried on the state railway of France, and which is intended to check and stop trains. The device is operated from the station, and, placed 250 yards away, will stop the train before it reaches the station. It is fastened to the rails, and when in operation catches a lever hanging from the passing locomotive, which causes an air valve to open, and puts the brakes immediately in action.
A charming trip through classic and storied Italy tonight, at eight o'clock, under the skillful conduct of Dr. C. Alphonso Smith, of the University of Louisiana.

Undoubtedly Popular.
That permanently distinct and perennial style of amusement known as "minstrels," is still undoubtedly popular with the masses is shown by the big business being done throughout the country by Richards & Pringle's Georgias in mighty union with Rusco & Holland's Operatic Minstrels, headed by the great colored comedian, Billy Kersands, who is beyond question the greatest exponent of genuine negro minstrelsy in the world. This year they come with a brand new show which, according to newspaper comment, surpasses anything ever attempted by this organization. They will appear at Bogart's Opera House, Saturday night Oct. 30.

MRS. JOE PERSON.
Charlotte, N. C., April 5, 1895.
Madam:—last year I was afflicted with some skin trouble affecting my feet, pronounced by my physician to be erythema. I was confined to my room for some two months and was lame for six months or more. After trying many remedies without effecting a cure, I resorted to your Remedy. After taking three bottles I began to improve, and before I had finished the fifth or sixth bottle I was practically free of the trouble. Once since then there recurred symptoms of its return, when I again resorted to your Remedy, and again the trouble disappeared. I believe I am indebted to you for relief from a very serious affliction.
Yours truly,
HAMILTON C. JONES.

"SPIRITED" THE GOODS AWAY.

Attempt of a Danville Negro to Cheat the Insurance Company.

Policeman Wagner, of Danville, came over to Greensboro last night and secured the services of Officer Scott to assist him in locating and securing a trunk, supposed to be at or near McLeansville.

Allen Doggett, a negro living in Danville, it seems, had purchased or rented a lot of household goods on the instalment plan. He then had them insured. Sunday night an attempt was made to burn his house. The fire was discovered before it reached the part of a mattress which had been thoroughly saturated with oil, and extinguished. Examination brought out the fact that the carpets, bed spreads, etc., had been removed from the house.

Doggett and his wife were both arrested. It was learned that Doggett had been over to McLeansville, near Greensboro, and following up this clue, a large trunk was found there, left there by Doggett on Sunday, which contained various articles which were identified as the goods insured by Doggett. The trunk contained carpeting, dresses, smoothing irons, a bible and numerous other articles and was so heavy that the two policemen had to rest thirteen times in carrying it about a quarter of a mile.

The bedsteads and mattresses, with such other articles as could not be put in the trunk were left to be devoured by flames, but fair and fickle fortune was against the scheming darkey and he not only lost the insurance money, but now languishes in jail.
